SOFTWARE AND WEB DEVELOPER | VIDEO EDITOR

Lagos State, Nigeria | +2348164611787 | azuorugeorge@gmail.com | [GitHub](#) | [Personal Portfolio Website](#)

Profile Summary

I am a versatile **Software Developer** and **Video Editor** with expertise in C# backend development, web development, and visual storytelling. My technical skills include crafting efficient RESTful APIs, building intuitive web interfaces, and designing responsive applications. With over five years of experience in video editing, I specialize in VFX and compositing, creating dynamic content using After Effects and Blender. I combine technical precision with creative vision to deliver impactful applications and media projects.

Experience

Software and Web Development

- **Currency Exchange App**
Developed a C# application that facilitates real-time currency conversion, integrating external APIs for exchange rate updates and a user-friendly interface using ASP.NET Core MVC.
- **REST API Development (ASP.NET Core)**
Built APIs to handle complex backend processes, ensuring smooth database interactions, efficient data management, and reliable service delivery for multiple applications.
- **Weather Forecast App**
Designed and deployed a cross-platform weather app using .NET MAUI, integrating real-time weather API data for desktop and mobile compatibility.
- **Simple Quiz Application**
Developed a C# quiz app showcasing user input handling, logic flow, and error management.
- **Car Dealer Application (Ongoing)**
Developing a web application with ASP.NET Core APIs and a frontend interface that supports car listings, user inquiries, and admin functionalities for content management.

Video Editing

- **TBC Pictures (2023–2024)**
 - Edited promotional content, advertisements, and short films for client, ensuring visually compelling narratives and smooth transitions.
 - Specialized in VFX and compositing using Adobe After Effects and Blender to create immersive visual effects and dynamic scenes.
- **PurpleScarlet Mini Mart Website Video Content**
 - Created promotional videos and visual assets for the **PurpleScarlet Mini Mart**, a project highlighting dynamic video editing integrated with modern website design.

Education

- **Elizade University**
BSc in Computer Science (2020–2024)
Graduated with a CGPA of 3.7/5.0.
-

Skills and Abilities

Software Development

- **Backend Development:** Proficient in C#, ASP.NET Core API, and .NET Core with strong OOP principles.
- **Web Development:** Expertise in ASP.NET Core MVC, HTML, CSS, and JavaScript for building responsive applications.
- **Database Management:** Skilled in Microsoft SQL Server and OLE DB for scalable data handling.

Video Editing

- **Editing Tools:** Advanced proficiency in Adobe After Effects (4 years) and Blender (1 year).
- **VFX and Compositing:** Specialized in creating realistic effects, animations, and cinematic sequences.
- **Content Creation:** Experienced in producing promotional videos, advertisements, and creative storytelling.

Cross-Platform Development

- Developed apps using .NET MAUI for desktop and mobile platforms.

Other Skills

- Debugging, problem-solving, and collaborative teamwork.
 - Experienced with Git/GitHub, Visual Studio, and Azure DevOps.
-

Programming and Editing Tools

- **Development:** C#, ASP.NET Core MVC, .NET MAUI, Swagger.
 - **Video Editing:** Adobe After Effects, Blender, Photoshop.
 - **Database:** Microsoft SQL Server, OLE DB.
